

COMPANY PROFILE

MORS Software LLC offers Uniquely Easy, Cost Reducing Risk Management Solutions

MORS provides

- Separately available modules for market, credit and operational risk (picture above)
- Dynamic reporting (“live” figures, full drill down)
- Consolidated reporting for the whole bank (both trading and banking book)

MORS solves regulatory and management requirements (CEBS, Basel, FSA)

- Capital Coverage, Stress testing
- Risk measurement, monitoring and mitigation
- Control and Governance procedures

MORS reduces costs (minimising TCO of risk management solutions)

- IT costs (easy implementation, usage and maintenance)
- Processing costs (releasing user intelligence from data gathering)
- Capital cost (optimised usage and allocation)

The latest reasons why banks have chosen MORS are

- “MORS offered the most cost efficient tool for the Basel Liquidity risk rules (LCR, NSFR)”
- “MORS risk and treasury solution offered immediate and continuous payback”
- “MORS dynamic functionality for group level risk monitoring was offered at incomparable cost”
